Test App   Home   Sign in

Welcome to the Test

We're going to build a cool application using a MVC framework! This application was built with the Village88 folks!

Start

Manage Users
Using this application, you'll learn how to add, remove, and edit users for the application.

Leave messages
Users will be able to leave a message to another user using this application.

Edit User Information
Admins will be able to edit another user's information (email address, first name, last name, etc).

Please use Twitter's Bootstrap (nav, span4, hero-unit) to design the whole site.

Signin Page

http://localhost/signin

Test App   Home   Sign in

Signin

Email Address:

Password:

Sign In

Don't have an account? Register.

Register

http://localhost/register

Test App   Home   Sign in

Register

Email Address:

First Name:

Last Name:

Password:

Password Confirmation:

Register

Make the first person that register automatically an Admin (user_level = 9).

Already have an account? Login

Admin Dashboard

http://localhost/dashboard/admin

Test App   Dashboard   Profile   Log off

Manage Users   Add new

ID	Name^	email	created_at	user_level	actions
1	Michael Choi	michael@village88.com	Dec. 24th 2012	admin	edit remove
2	John Supsupin	john@village88.com	Dec 25th 2012	admin	edit remove
3	KB Tonel	kb@village88.com	Dec 29th 2012	normal	edit remove
4	Mark Guillen	mark@village88.com	March 31st 2013	normal	edit remove

REMOVE: clicking on 'remove' needs to open up a confirmation box that asks the user 'Are you sure?' and when the user clicks on 'OK' or 'Yes', remove the information from the database/site.
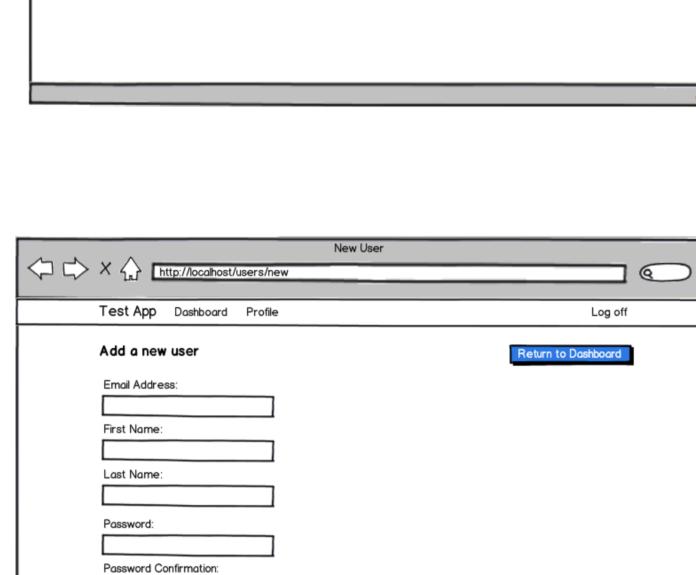

This is the dashboard that the admin would see

New User

http://localhost/users/new

Test App   Dashboard   Profile   Log off

Add a new user   Return to Dashboard

Email Address:

First Name:

Last Name:

Password:

Password Confirmation:

Create

only allow admin to add a new user

User Information

http://localhost/users/show/[user_id]

Test App   Dashboard   Profile   Log off

Michael Choi

Registered at: December 24th 2012
User ID: #1

John Supsupin wrote   January 5th 2013
Hi Michael! What is the best way to learn how to code?

KB Tonel wrote   January 15th 2013
Hi John. Have you checked out village88.com?

Diana Manlulu wrote   5 days ago
You should also check rubyonrails.org

Edit User

http://localhost/users/edit/[user_id]

Test App   Dashboard   Profile   Log off

Edit user #[user_id]   Return to Dashboard

Edit Information
Email Address:
{email_address of the user}
First Name:
{first_name of the user}
Last Name:
{last_name of the user}
User Level:
Normal
Admin

Save

Change Password
Password:

Password Confirmation:

Update Password

only allow admin to edit the information

User Dashboard

http://localhost/dashboard

Test App   Dashboard   Profile   Log off

All Users

ID	Name^	email	created_at	user_level
1	Michael Choi	michael@village88.com	Dec. 24th 2012	admin
2	John Supsupin	john@village88.com	Dec 25th 2012	admin
3	KB Tonel	kb@village88.com	Dec 29th 2012	normal
4	Mark Guillen	mark@village88.com	March 31st 2013	normal

This is the dashboard that a normal user would see

Edit Profile

http://localhost/users/edit

Test App   Dashboard   **Profile**   Log off

Edit profile

Edit Information
Email Address:
{email_address of the user}
First Name:
{first_name of the user}
Last Name:
{last_name of the user}

Save

Change Password
